MAIL YOUR BIDS IN TIME TO REACH ME BY JUNE 7

To Collectors—In this sale, my 50th, you will find many things of real interest to you. Therefore buy them now while the opportunity presents itself. Make your bids liberal so as to avoid disappointment and I will do my utmost best for you. I think of the buyer's purse as well as the seller's. The feature of this sale is, of course, the magnificent collection of dollar or crown size foreign silver coins. Do not overlook the following: About 25 "wild man" crowns, 1856 flying eagle cent, Canadian tokens, Numismatic books and magazines, large cents, early dollars, U. S. and foreign gold, hollow trade dollar, Bryan dollars, uncirculated Fugio cents, Ancient silver and copper coins, fine large and handsome medals, Pine Tree shilling, paper money, fractional currency, commemorative coins, and a complete set of U.S. commemorative half dollars.

Please Bid by the Piece Unless Stated to Bid for the Lot

WHAT OTHERS HAVE TO SAY

On file in my office are one thousand signed testimonials, all unsolicited; these may be inspected by visitors. Here are a few that were just recently received:

"As usual I find the coins as represented in the catalog as to condition which is worth considerable to bidders." From Pennsylvania.

"Any enthusiast can well afford to indulge—especially if he is desirous of securing choice coins—for as you advertise, your coins come thru just as rated. Good work; keep it up!" Michigan.

"As the New Year begins, allow me to reiterate my profound appreciation of your square dealing and excellent values."—Ohio.

"I have noticed that your auction catalogs have grown from a couple of pages to a very good catalog, which I figure is the result of giving satisfaction."—Calif.

"Your check received for collection sold. You certainly did far better than I expected. I am well pleased with such fine results."—New York.

"Proceeds received from the consignment you sold for me, and I am entirely satisfied with same, as I did not expect that sum."—Pennsylvania.

"I am pleased with the coins and would like to thank you for the promptness."—Chicago.

"The coins you secured for me at your auction were just what I wanted. In fact, I have been looking for some time for three of the items. The Russian coin is a beauty."—Calif.

"I have been appointed the official buyer for a group of coin collectors, so I keep you busy with our bids. The last coins arrived O.K. and we are all pleased."—New York.

"Will have to give you credit for grading your coins properly so a person knows just what they are."—Illinois (from an experienced collector).

"I appreciate your courtesy in allowing me to return the coin, which I ordered by mistake. Everything else was fine."—Texas.

"This exceeds my expectations somewhat, and I thank you for the A-1 service rendered."—Pennsylvania.

"Sale items received. I am so well pleased with the way you handled my bids, that I hardly know how to express my thanks and appreciation. Enclosed find my check of \$42.09 to cover. I can hardly get this to you quick enough, as I feel so happy and pleased."—S. D.

Let me sell your collection or duplicates in these sales. Quick returns and satisfactory results are realized. My sales are held regularly each month. Write for terms.

PLEASE BID BY THE PIECE UNLESS STATED TO BID FOR THE LOT. Thus if there are 12 pieces in a lot and you wish to pay \$6.00 for the lot, then bid 50 cents. At each sale someone bids by the lot. Don't do this; bid by the piece.

Read Every Word in This Catalog or you are very apt to miss just what you want.

Keep on my mailing list by sending bids, or if you find nothing to bid on, request next list simply by a postal card. You will find a great variety of numismatic material in this sale, some choice and rare items, and will be well paid for giving the contents of this sales list your careful perusal.

The usual charge of 5% will be made for executing your bids, and for packing and sending out material. No charge made on anything not actually purchased. This fee is very low for the superior service I expect to give you.

Collectors of experience find that not all dealers classify coins alike.

My classifications and descriptions are based on knowledge gained through 15 years of earnest dealing in coins. I have endeavored to refrain from over-rating the quality of a lot, which is so common. I believe that the word "RARE" should not be over-worked.

Please remember my strong guarantee. If goods are not satisfactory (you are to be the judge), you are at liberty to return them without any danger of offending.

New bidders should send references or a deposit of at least 25 per cent of bids.

Coins will be bought as much below your bids as possible, as this is competitive bidding carried out in good faith.

If you do not know how much to bid on any item, write me and I shall be glad to inform you as to its value.

Receipted bills are not sent after your remittance as this is unnecessary. Your check, draft, or money order itself is a receipt and we ask you to pay only once. However, if a 2-cent stamp is enclosed we will send receipt.

CONDITION OF COINS

The classifying of coins is an intricate and sometimes nerve-testing effort. Even expert numismatists are disagreed on various points. In my auction sales, it is my earnest purpose to give both buyer and seller a square deal. It is quite natural and common for an owner to over-rate the condition of his own coins, sometimes without realizing it. But when a dealer sells a coin to a customer, he should place himself in the customer's place and abide by the golden rule. I want to have my customers get what they expect, and try to represent everything fairly. Therefore, I have adopted the following definitions of conditions of coins, this feature being of the very highest importance in collecting. Please make your bids according. And remember, that even in my auction sales **I guarantee absolute satisfaction in every way or your money will be cheerfully refunded** as well as any postage you have expended in returning lots.

A coin in **proof** condition is one of that class which is prepared in the mint particularly for numismatic purposes. This is the highest state of condition imaginable and a coin in this condition has its maximum value. The planchet (bare piece of metal before struck) and dies are polished before the coin is struck (made) and this gives a burnished, mirror-like, reflective surface. **Never try to polish a coin.** The only time this could be done, is before it was made.

A coin in **uncirculated** condition is one that is in just the same state or condition as when delivered from the mint. It must not be tarnished or blackened, but must have a splendid general appearance. The coin must be entirely desirable. Luster is usually abundant.

A coin in **fine** condition is one which shows to the naked eye no signs of wear. They may have become tarnished or blackened, but seldom are. **As a matter of fact**, a coin may have experienced considerable traveling and yet be classified as fine if it has been luckily in good hands.

A coin in good condition must show every feature very plain. Coins with part of the legend worn smooth are not good specimens.

A coin in fair condition is a piece which has been very considerably in use, but upon which the most of the lettering, design, and date is clearly readable. Moreover, the coin must be free from mutilation. If the surface of the piece has been worn down so smoothly that the design, legends, and date are not plain, or if there is a hole in it, or if it has been bent or is corroded or otherwise damaged, then such a coin cannot be classed as fair, as it is not as valuable.

J. W. Scott once said, "No two stamps if examined critically are exactly alike." I can say the same thing of coins. Therefore, it is necessary to use intermediate conditions as follows:

Extremely fine—with not enough, original mint luster to be classed as uncirculated.

Very fine—Fine, extra strong, well-struck, and desirable in general appearances.

Very good—Everything very plain and showing very little wear on any part. Just the highest parts of the coin are affected.

Very fair—Everything legible, but general appearance not worthy of the classification "good."

Other terms speak for themselves. Among these are poor, very poor, holed, scratched, bent, nicked, mutilated, polished, cleaned, tarnished, corroded, eroded, dented, rubbed, etc. These terms have the same meaning in relation to coins that they have in other usage. See Webster's Dictionary.

It is nearly impossible to improve the numismatic condition of a coin by any method, except in very rare cases, and then only at the hands of an expert. By this I mean that if a piece is worn or scratched, it can not be remedied by polishing. On the contrary, its condition may be lowered in degree.
